Always striving for quality and health

Puppy Guarantee,

The puppy you have selected is guaranteed by us to be healthy at the time of purchase. To keep this guarantee in force, you must have this puppy examined by a licensed veterinarian of your choice within seven days of the purchase date. Your puppy needs to continue on the same diet for the first seven days. During the initial exam, should your veterinary detect any chronic health disorder, you must contact us immediately. No veterinary services will be paid for by us.

In accordance with the above, we will also guarantee your puppy for fourteen days from the purchase date against the puppy diseases from the vaccination including the following: Canine Distemper, Adenovirus Type 2, Coronavirus, Parainfluenza, and Parvovirus. In the event your puppy does not pass his/her exam or should he/she contract any of the above mentioned diseases within the fourteen day period, he/she must be returned to us immediately. We will replace your puppy or allow a full credit toward the purchase of any puppy of your choice.

Two Year Extended Guarantee

We guarantee your puppy until two years of age against hip dysplasia, heart murmurs, and skeletal abnormalities that would be life threatening to your puppy. In the event of such an occurrence, we will give you another puppy of your choice, provided that you have supplied us with a veterinary report verifying such a condition, within fourteen days of diagnosis by the veterinary.

Buyer has read and understands the puppy guarantee and acknowledges that no cash refunds or reimbursements for veterinary fees will be made, and that the initial exam must be done within seven days of purchase. The above puppy guarantee and six months extended guarantee constitutes the entire guarantee provided by us. The buyer agrees that no other guarantee or warranties have been made either expressly or implied. The following information must be completed to validate the guarantee.
